Superior ConstructionThe hull is built to the highest standards with three vacuum-bagged, cold-molded epoxy layers totaling 3/4" thickness. White Oak provides the strong backbone with robust framing, keel, and chine logs, while the Honduras Mahogany planking is protected by 20 coats of traditional single-part varnish, delivering a deep, mirror-like finish that will continue to impress for decades.

This is not a production boat — it is a one-of-a-kind custom creation that perfectly marries classic wooden boat heritage with contemporary comfort and style. Every line, curve, and detail reflects extraordinary artistry and pride of workmanship.

Priced to sell and seriously for sale. This exceptional Windlea represents a rare opportunity to own something truly special.
